

EDI Migration Managed Services

Connect to everyone through OpenEDI™®

With migration to Transalis OpenEDI™ there is no software or EDI knowledge required. OpenEDI™ is used by large organisations such as **Argos, Microsoft, PLAY.com & Tetley**. OpenEDI™ offers a single platform for seamless EDI integration with any ERP system delivering simplified IT infrastructure, enhanced IT productivity, and expanded electronic enablement capabilities for efficiently handling EDI transactions with trading partners. Furthermore, migration to OpenEDI™ is a **fast & straightforward process**.

Switch & Save with OpenEDI™

Switch to the EDI Service you always wanted! Low cost, high productivity, optimized processes with Managed Services for Web, Integrated & Supply Chain EDI.

OpenEDI™ integrates seamlessly with your internal systems to eliminate middleware, saving you thousands in licence fees & related support costs. OpenEDI™ systems integration works with any data format (EDI, CSV, XML, etc) and any ERP & back-office systems.

OpenEDI™ rapid migration services reduce VAN traffic costs, reduce manual transaction costs & reduce the cost of trading partner EDI enablement & rollout.

OpenEDI™ delivers reduced data & communication errors, to streamline processes, increase capacity, strengthen security & availability & to reduce manual processing.

OpenEDI™ automates & streamlines your order/invoice processes & any other message type or collaborative processes. OpenEDI™ facilitates automation of trading partners with any data formats & communication protocols (EDI, CSV, XML, FTP, AS2, email, etc). OpenEDI™ will even enable the **automation of trading partners without EDI capabilities**.
