

freeVAN™ EDI Managed Services

Changing the way Companies Communicate™®

With Transalis freeVAN™ there are no VAN costs to the retailer and unlimited traffic. Transalis supports organisations such as **Argos, Microsoft, PLAY.com & Tetley** for the complete EDI order-to-invoice cycle with thousands of suppliers. With freeVAN™ there is nothing stopping **any large organisation removing VAN costs & rolling out EDI to all their trading partners for total supply chain EDI enablement.**

Remove VAN Costs!

Connect through freeVAN™ & remove VAN costs with a single connection to your whole supply chain. Other VANs charge for traffic, generating costs, and not all suppliers use the same VAN, creating complexity.

Now freeVAN™ simplifies the process as all suppliers can connect easily to any retailer via freeVAN™. And, there are **no traffic charges** to the retailer.

With freeVAN™ you can easily send & receive Orders, Order Amendments, Acknowledgments, Invoices, ASNs, Despatch Advice Notes, Delivery Notes, Debit Notes, Credit Notes, Remittance Advice Notes, Sales & Inventory Reports & any other EDI documents.

100% supply chain EDI enablement. Low cost, high productivity, optimized processes with Managed Services for Web, Integrated & Supply Chain EDI.

And, you can remove EDI translation software for seamless EDI integration with your internal systems using Transalis **OpenEDI™ Managed Services.**

- **House of Fraser**
- **John Lewis**
- **PLAY.com**
- **Tetley**

What Users Say!

Amazon.com., EDI Team

"We'd like to comment on the Transalis OpenEDI™ integration process with Amazon. It was a pleasure to work with them. Quick responses to emails & turnaround of documents was greatly appreciated. Amazon expects vendors to integrate within 4 weeks. Some take much longer.

Transalis took just two weeks from start to finish & included testing

which tends to take other vendors much longer. Even having 2-3 test files per transaction before passing the Amazon validations, the speed at which requested changes were made, was very commendable. Thank you".
